NEW YORK, Sept. 27.—Half a hundred or more scheduled college and university football games today ushered in the real 1913 debut of King Football. The "dress rehearsals" that occurred at Carleton, University of Maine, Western Maryland, Gettysburg and a few other places a week ago and the Yale-Westleyan, Conn. game last Wednesday were merely the usual "feeling out" affairs. Today was the first big day. Practically every college and university eleven in the eastern and middle states opened the season today. Indiana and Minnesota were the only members of the western conference to start today. Other western eleven—not in the conference—who play today are University of Pittsburgh-Ohio Northern, De Pauw and South Dakota. The other seven members of the western conference will open their seasons next Saturday, as will the majority of other western eleven outside the conference.

The Harvard-Maine game today at Cambridge, Mass., will be closely watched by Yale scouts, because the New Havenites play Maine at New Haven next Saturday. It will furnish, as much as such comparisons can in football, a line on the Crimson and Blue. The Army, by starting against Norwich today is getting a jump on the Navy, which doesn't start until next Saturday when it meets Pittsburgh.

IT SHOULD BE MAINTAINED.

(Portland Evening Telegram.) Pendleton in its Round-up gives an extraordinary exhibition. It is unequalled anywhere. The town has advantages in location which give it an exhibition by the nearby Indians that

is unapproachable. The parade spectacle daily given in ten arena made up of the cowboys and riders and the Indians in all the variety and gorgeousness of their costumes in a spectacle as superior to any presented by the biggest circus as anything that is natural and real can be superior to that which is simply artificial and created for purely commercial exploitation. It is a fine thing that any city in the state is able to present such a spectacle, but it is a marvelous thing that a town the size of Pendleton can do it and do it so superbly.

It is to be hoped, as in the past, that the managers will keep the spirit of speculation and commercialism out of the show. It is likewise to be hoped, to keep the purely professional element off the program. It is a great show, backed by a whole community and it is worth while preserving so that the people of the United States may have the chance to enjoy a gorgeous natural spectacle such as money cannot buy under the artificial conditions of modern commercial life.

Diarrhoea Quickly Cured. "I was taken with diarrhoea and Mr. Yorks, the merchant here, persuaded me to try a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After taking one dose of it I was cured. It also cured others that I gave it to," writes Mrs. M. E. Gehlert, Oriole, Pa. This is not at all unusual. An ordinary attack of diarrhoea can almost invariably be cured by one or two doses of this remedy. For sale by all dealers.—Adv.

The average murder rate per million in 30 American cities for 1901-1910 was 69. In 1911 it was 83. In foreign countries it ranges from 6 to 15.

"IT'S ONLY 60 POUNDS," SAYS PROFESSOR TAFT

WASHINGTON, Sept. 27.—Former President Taft smiled broadly when told that Representative Borland wants to replace him, Uncle Joe Cannon and other republicans on the Lincoln memorial commission with democrats. "They took the presidency away from me," said Professor Taft, "and I couldn't protest. But if they intend to take this job away also, I shall protest most vigorously."

Taft grinned when a friend said he heard that the former president had lost 80 pounds. "That," he said, imitating Colonel Roosevelt's tone of voice, "is a malicious lie. It's only 60."

Prof. Taft cancelled his acceptance of an invitation to lunch with Speaker Champ Clark.

"I'm so busy with this Lincoln memorial job," explained the former president, "that I won't have time for any noon refreshments."

BIG LOCKS LET VESSEL THROUGH

SEA GOING TUG IS FIRST SHIP TO ENTER THE PANAMA CANAL.

OPERATION IS SUCCESSFUL.

Throngs Cheer Wildly as Vessel Enters—Now Floats on Gatun Lake—Locks Work Perfectly and Officials in Charge are Much Pleased With the Results.

PANAMA, Sept. 27.—The most important step thus far toward the operation of the Panama canal took place yesterday when the sea going tug boat Gatun, drawing twelve and a half feet of water, was passed successfully through the Gatun locks and last night floated on the bottom of Gatun Lake.

This was the first attempt to operate the locks on the canal and the result was highly pleasing, according to Colonel Goethals, chairman of the canal commission and canal officials generally.

All day long hundreds of persons, men, women and children without the burning rays of the tropic sun to see the act of passing the first vessel from sea level to the level of Gatun lake which had reached a height of a little over 65 feet, or within 20 feet of its normal level.

The operations were conducted with great care and everything went through according to schedule. The three chambers, upper, middle and lower, on the west side of the locks were used on this occasion. The men worked far into Thursday night making everything ready for the operation. The upper lock filled in the forenoon and yesterday afternoon the water was admitted to the middle and lower locks, but it was not until 4:45 p. m. that the water in the lower lock had reached the level of that in the sea channel outside.

At that hour the sea gate was swung and a moment later the tug which had been in readiness all day in the approach channel turned its head toward the entrance. As the vessel passed the inside the lower lock chamber, a mighty cheer went up from the assembled thousands that lined the lock walls, the tugs whistles were blown loud and long and all the whistles in the neighborhood joined in.

BECOMING COAT STYLE.

A fetching coat suit is this made of dull green French serge, just the thing for the first cool days. The waist of the coat is high and marked at the center front by a bow of green taffeta. This coat has the Raglan

mixture of Sheraton, early Italian, Georgian and any other period the owner prefers.

The post-impressionist and futurist cretonnes and tinted linens are to be used a great deal this autumn, and these will appeal to the woman whose pocketbook is too slim to afford more expensive materials.

These washable materials are very beautiful, especially the futurist ones in vivid colors, with a picture hidden until you search for it. They lend a necessary brightness to the subdued tones of ultra modern rooms.

Mother of Eighteen Children. "I am the mother of eighteen children and have the praise of doing more work than any young woman in my town," writes Mrs. C. J. Martin, Boone Mill, Va. "I suffered for five years with stomach trouble and could not eat as much as a biscuit without suffering. I have taken three bottles of Chamberlain's Tablets and am now a well woman and weigh 168 pounds. I can eat anything I want to, and as much as I want and feel better than I have at any time in ten years. I refer to any one in Boone Mill or vicinity and they will vouch for what I say." Chamberlain's Tablets are for sale by all dealers.—Adv.

ECZEMA BROKE OUT IN PIMPLES

Itched So Child Would Cry and Scratch Himself Until Blood Ran. Very Much Disfigured. Cuticura Soap and Cuticura Ointment Proved Complete Cure.

Whitewater, Colo. — "Eczema broke out all over my little grandson's face and body. It just looked as though blood poison would set up at times when he would scratch himself so much. The eczema broke out in pimples and would run a watery corruption and wherever the water touched the flesh, another pimple would form until the pimples would form a sore. His clothing irritated his body and he lost his rest at night. The disease was so irritating and would itch so that I have seen him in such an irritating condition that he would cry and scratch himself until the blood would run. He was very much disfigured as the skin would be torn from his cheeks from the scratching."

"I tried all the simple remedies that I knew of to stop the pain and burning; I used and and bathed him in soda water but they did not cure him. This went on until January 1912 when I began to use the Cuticura Soap and Ointment, which proved a complete cure in a short time." (Signed) Mrs. Laura Stephens, Nov. 19, 1912.

Cuticura Soap 25c. and Cuticura Ointment 50c. are sold everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address: Post-office Box 5000, Cuticura, Dept. T, Boston. 32 Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.
